Getting SAFE EXAM BROWSER to work on multiple screen Systems. WINDOWS

Thanks to Jessica, one of our Medical Radiography Instructors for uncovering this fix and sharing the screen capture!

We'll assume you have Safe Exam Browser loaded in to your computer.

- First find the SAFE EXAM BROWSER FOLDER in your computer's list of Software programseither click the Window Logo on your screen or Window key on your keyboard.
- Scroll down to the Safe Exam Browser Folder
- Click on the Folder to find the SEB Configuration Tool
- Click on the SEB Configuration Tool to open it
- Click on the SECURITY TAB
- Look for Maximum allowed number of screens
- Change the 1 to the number of screens you are using (in this case 2)
- Click "File" then SAVE settings.

SEB Service (Win)		macOS specific settings	
☑ Ignore SEB Service		Enforce reneral macOS version: OS X 10.11 El Capitan	
INFORTANT: The SEE Service charges an terupty scenes CTPL-VET-CELL Scene and millions. This is not recommended to an SEE Service Palloy.
